

## U.S. Loan Barred, Key Calls Parley

### State Constitution Prohibits City From Borrowing, Mayor Asserts.

Asserting that under the constitution of the state of Georgia, Atlanta cannot obtain loans from the Reconstruction Finance Corporation for any purpose—even to feed or clothe the needy—Mayor James L. Key today called department heads to a meeting to be held next Wednesday at 10 o'clock to study the fiscal problem facing the government.

Key's declaration concerning the funds being dispensed by the Reconstruction Finance Corporation was in answer to a letter from Miss Alice Mann, president of the Atlanta Public School Teachers' Association, in which Miss Mann asked that funds be borrowed to relieve the present financial condition in which the city finds itself because of the slow payment of taxes.

The conference of department heads is for the purpose of cutting down expenses as much as humanly possible by reducing consumption of supplies and materials and to see if any suggestions can be made.

A last-minute rush of taxpayers to take advantage of the last day on which taxes can be paid without penalty is expected today. Tax assessment and tax collectors' offices will remain open the entire day, it was announced at the city hall.

Key pointed out that the only way the city can contract a legal debt without the consent of the people is by a referendum of the people, and that the Reconstruction Finance Corporation will not lend money to any government which cannot furnish a legal and binding contract.

## HOOPER PUSHES WORK ON CLEVELAND TEXT

WASHINGTON, Oct. 14.—(AP)—Continuing work on tomorrow's Cleveland address, despite a bandaged hand, President Hoover prepared himself today for a start shortly after daylight upon his second campaign trip into the Midwest.

Between dawn and dusk tomorrow the president plans to make ten radio platform appearances in swift succession while traveling across four states. He is expected to arrive in Cleveland only a few minutes before 8:30 p. m. (eastern standard time) and intends to start on his return trip almost immediately after concluding.

White House aides told newspapermen here were not at liberty to disclose the subjects upon which the chief executive will speak.

They said Hoover will work upon it, and probably would not complete the address until after he boards his special train tomorrow.

The first scheduled stop on the presidential itinerary is Martinsburg, W. Va., followed by stops at Cumberland, Md.; Meyersdale, Connellsville, McKeesport, Braddock, Zelienople and New Castle, all in Pennsylvania, and Youngstown and Akron, Ohio. Also the train is to slow down in passing through Ravensburg and Kent, Ohio.

Twice during the day the chief executive had his injured hand treated by Dr. Joel T. Boone, the White House physician.

It was bruised and cut last night during a White House reception at which he shook hands with more than 3,000 people. More than 1,000 additional guests waited outside until he finally was asked to be excused and retired.

## Republican Praises Roosevelt's Financing

HYDE PARK, N. Y., Oct. 14.—(UP)—Campaign charges that Franklin D. Roosevelt, as president of the United European, Ltd., advised the public to invest in German securities in 1922 as a result of which money was lost, were denied tonight by Edward S. Payne, a New York attorney, who was active in the firm. Mr. Payne, a republican, declared he wrote the letter in a spirit of fair play. He will vote for Hoover, he said.

Roosevelt made public a letter from Payne to him refuting the allegations which the attorney said were grossly untrue. He was born and reared in Monroe county. He was a brother of John T. Moore and B. M. Moore, of Macon, and is survived by his wife, four daughters and one son.

## Key Accepts Race Challenge, But 'Texas' Needs Rebuilding

In the Grant park building which houses the Cyclorama, painting of the Battle of Atlanta, rest Georgia's most famous historical relic—the engine, Texas—deteriorated, corroded, wasted and neglected.

Necessity for reconditioning of the famous engine is the only hitch in a proposed re-enactment of the history-making railway drama, which saved at least for the time, the Confederacy. Condition of the Texas as compared to the General, which it vanquished in the historic run in 1862, was recalled to the minds of Georgians Friday morning when Mayor Ed Bass, of Chattanooga, boasting of the renewed General, challenged Mayor James L. Key to a modern race between the two Civil War opponents. Key accepted.

But the main hitch is that the Texas would not run a foot in its present condition. Key is in earnest about this race. He wants it to be a veritable pageant, re-enacted in costume of the period, but before a witness the Texas can be turned out must be virtually rebuilt because of the long neglect it has suffered.

There is what is tantamount to a three-cornered claim for title to the famous engine. James A. Perry, chairman of the Georgia public service commission, claims it is the property of the state; Key has held in the past that its custody has been vested in the city of Atlanta, and that the municipality has a claim to title, and the N. C. & St. L. railway, holder of the W. & A. railway lease, wants it at the end of the line, as the General now reposes in state in the Chattanooga station.

James B. Hill, president of the N. C. & St. L., has agreed to recondition the engine if it can be placed in the Union station here, but thus far he has balked in his efforts.

Key and Bass want another race, and there is a popular demand for it. This may react to save the Texas, and the event may be one of the greatest interstate affairs staged in modern Dixie. Key and Perry said Friday that every possible concession should be made to save the Texas and it is believed that the matter will be adjusted within the next few days.

"We have been told the depression was worldwide and perhaps this is entirely correct. If so, the cause of a worldwide depression may be laid at the door of the republican congress which fought through the Hawley-Smoot tariff act, affecting international trade as follows:

COLUMBUS, Ga., Oct. 14.—(P)—A garrison review of all combatant troops of Fort Benning will be staged tomorrow. About 3,000 officers and men will participate in the review, which will be commanded by Colonel Fred Munson, commander of the Twenty-Fourth infantry. Major General Campbell King will receive the review.

This was not all due to the decline in prices, since the decline in prices was less than 35 per cent which was traceable to a lack of exports. Failure to sell our goods in foreign markets flooded our home markets and hence forced prices to the bottom."

Mr. Deen said that "if leadership, scholarship and statesmanship are the three acquired prerequisites of a president of the United States, then Mr. Roosevelt will make a great president."

He said Governor Roosevelt is "sincere and honest, a hard worker and possesses vision and courage."

Roosevelt, he said, "will teach the republican leaders, along with the president, that the significant decline of all marketable commodities is not due to overproduction but to a lack of constructive insight as to the relation existing between producer and consumer; that in preserving a sound currency it is best preserved when in circulation and not in the hands of a possession of international bankers who monopolistic policies have perpetuated their selfish greed and gain at the expense of overburdened taxpayers."

The deed was recorded on the records of the clerk of Hancock superior court Wednesday and covers some of the finest farming and pasture lands in the county.

In making full settlement of stock assessment in this manner Mr. Harris has received the commendation of many of the largest depositors in the bank as the land will undoubtedly bring enough to cover the stock owned by the former president.

The only witness at the hearing Friday was Dr. W. Pope Baker, of Atlanta, son of the slain man who was himself slightly wounded at the time his father was killed. The case probably will be investigated by the Houston county grand jury next January.

The mother of the slain man, Mrs. Mattie L. Boon, and his brothers, who were in Florida, arrived here early this afternoon and went to Grovania at once. After learning the story of the tragedy from the lips of Mrs. Boon, the brothers accompanied her here to get the warrant.

The widow, who witnessed the slaying of her husband, said today that he did not pick up a piece of timbers, as had been charged by Marshall and his wife before a coroner's jury. She added that he carried no weapons. She declared that the killing was without justification.

## Capitalize the Depression, Theme of Inspiring Message on Insurance

### OPPORTUNITY FOR SUCCESS AWAITS COURAGEOUS MEN

"We Shall Look Back Upon These Trying Times as Impetus to Progress," Says Dern.

One of the most constructive arguments in reference to the general business depression is presented by A. L. Dern, manager of agencies of the Lincoln National Life Insurance Company, in an interview appearing in a recent issue of the Life Association News. Mr. Dern says, in part:

"I am sure that you, as I, will find an inspiring challenge in the message to the public penned by our controller and assistant secretary, Mr. Wightman:

"Has this depression laid you low, slain your courage?"

"Have Hard Times crumpled up that Bold Front that concealed a puny, shrinking, flabby soul?"

"Do you know now that you never were the astute, aggressive, indomitable, successful man of affairs that existed only in your own conceit?"

"Were you, after all, merely a bit of flotsam that fortunately rode on the crest of a great wave of prosperity—just a plaything of Fate—a helpless victim of circumstances caught up and borne by a whimsical tide?"

"Poor, scared, timid, little soul? Who can censure you for clinging so tenaciously to the little that you have salvaged from the wreckage?"

"You're all washed up and you know it. In the name of charity, then, hang on to what you have left until red-blooded businessmen have rebuilt the fallen industrial edifice."

"The remainder of this message is addressed to red-blooded men and women everywhere:

"Depressions in business are like fevers in infectious diseases—the function of each is to slay parasites—and when their mission has been performed, they abate."

"The fundamental weaknesses in the American business structure which existed in 1929 have now been fully corrected."

"Any man or woman who has any

### Duval Sheriff Leaves With Wofford, Drew

Sheriff W. B. Cahoon, of Duval county, Florida, left early Friday for Jacksonville with James Wofford and Cleo Drew, convicts who escaped after they had been summoned as witnesses in the trial of Solomon Higginbotham, former prison guard, on trial at Jacksonville for murder in connection with the death of Arthur Maillefert, another prisoner.

The two youths were captured by Duval police early Thursday and were held at the Fulton tower Thursday night. Sheriff Cahoon was accompanied by two deputies. News dispatches from Jacksonville early Friday night said that the officers and the two prisoners had arrived there.

### OFFICER AND WOMAN FOUND SHOT TO DEATH

ORANGEBURG, S. C., Oct. 14.—(AP)—Mrs. Sallie Burke was found shot to death at her home here today and across her body lay that of Policeman J. K. Knotts with a fatal pistol wound in his head. A pistol was in his hand when the bodies were found.

Knotts was to have been relieved of duty at noon today after 13 years on the force.

The bodies, Mrs. Burke's partly clad, were found on a bed in the woman's home where she lived with a small daughter. Knotts was married and the father of several children.

self assurance, who possesses any of the courage of our Pilgrim Fathers, or who is endowed with any of the spirit of 1776, will look forward to the morrow with a calm and an inspired confidence that he or she will share proportionately in the prosperity whose early return is inevitable.

"Such a man or woman will wish to have a part in hastening the return of prosperity. Fortunately, such an opportunity now presents itself, with the added assurance of profit attached thereto.

"Bargains are available everywhere. "Better automobiles at lower prices; quality furniture with basement price tags; linens, tapestries, dishes and glassware marked ridiculously low; fine raiment within the reach of the average man's salary; radios, electric household utilities—the dreams of yesterday brought within the realm of the reality of today.

"Investments—real estate, bonds, stocks—the opportunity of a lifetime.

"Self-reliant, courageous, and sagacious men and women will not hesitate to draw upon their capital funds in times like these to take advantage of these bargains. They will wish to enjoy new riding comfort, build or buy a new home or refurnish their present one, indulge in certain luxuries which were prohibitive up until now, wear better clothes, and enjoy life more fully.

"In so doing they shall be thrice blessed, for not only will they be getting more material pleasure out of life, but they will also enjoy the contentment that springs from a public benefaction; and finally they shall be hastening the day when their genius shall again have greater opportunity for self-expression.

"A prophecy is but a stab in the dark, yet I make the prediction that some day we shall look back upon these trying experiences, these burning impressions of 1930 and 1931, and find in them the cause for an impetus to the progress of the life insurance business that will mark in power and force with the influenza epidemic of 1918, and with the soldiers' and sailors' insurance which gave the government's endorsement to life insurance."

"Men and women, the golden era of American life insurance selling is at hand."

### Old Low Prices on Re-Roofing Prevails at Willingham-Tift

Atlanta Home Owners Given Advantage of Savings Caused by Purchases Made Before Recent 33 1-3 Per Cent Advance in Roofing.

Although manufacturers of roofing have announced a sharp advance in prices, Atlanta home owners are offered an exceptional opportunity to re-cover their roofs by the Willingham-Tift Lumber Company at the lower costs formerly prevailing.

It is announced that roofing prices have risen 33 1-3 per cent since August 10, but the Willingham-Tift Company is in possession of stocks purchased before the advance and is merely passing this advantage of purchase at the low market on the Atlanta home owner.

The re-roofing department of Willingham-Tift was inaugurated only a short time ago with R. P. Ellis, who has been in the roof application business for many years.

Willingham-Tift specializes in re-roofing old roofs with Bird roofing materials, featuring the Twin-Lock shingle, which is made especially to be applied directly over old wood shingles or composition roofs, thereby preserving the insulating value of the original roofing.

The Twin-Lock shingle, made of Bird, is rectangular in shape and affords a very attractive appearance in either blue-black, red, green or a mild color mixture. The surfaces are in nature, unadorned colors. As the name implies the shingle has a twin or double lock at the lower corners entirely concealed.

The present low prices quoted by Willingham-Tift are for a limited time only, it is pointed out by W. B. Willingham Jr., secretary and treasurer of the company. It is therefore the part of wisdom for Atlanta home owners who are contemplating full

### LARGE GAIN IN EXPORT VALUES DURING AUGUST

August Outgo \$2,158,000 Over July; Imports Show Increase of \$11,580,000 During August.

The value of merchandise exported from the United States during August showed a gain of \$2,158,000 over July and an increase of \$11,580,000 in imports was shown.

Merchandise exports during August amounted to \$108,000,000 as against \$106,842,000 for July while imports totaled \$91,000,000 as contrasted with \$79,420,000 for the preceding month. The excess of merchandise exports over merchandise imports for August this year amounted to \$18,000,000 whereas a year ago imports exceeded exports by \$1,871,000.

For the first eight months of 1932 merchandise exports amounted to \$1,058,768,000 and imports totaled \$917,105,000, giving us a favorable balance of \$141,663,000. For the corresponding period of 1931 merchandise exports aggregated \$1,061,547,000 whereas imports amounted to \$1,448,290,000, making a favorable balance of \$213,257,000.

The increase of exports during August over July was due largely to increasing exports of cotton.

Gold exports for August amounted to \$18,067,000 and imports totaled \$24,170,000, indicating the reversal in the gold movement. Gold began to move into this country early in the summer. The above figures are not entirely representative of the extent of the movement inasmuch as they do not show the amount that has been released from embargo.

For the first eight months of 1932 our excess of gold exports over imports amounted to \$619,523,000; whereas for the same period of 1931 imports exceeded exports by \$318,155,000.

### STOCK PRICES RISE AS BEARS RETREAT

NEW YORK, Oct. 14.—(AP)—The stock market showed a recovery of the year today, as bears, appeared to have sold themselves into a trap and struggled to extricate themselves.

Extreme gains in many leading issues ranged from \$2 to more than \$8 a share, and although there was some recession leading issues generally showed net gains of \$1 to more than \$7. The upswing brought average price levels back to the neighborhood of a week ago.

The strength of stocks spread to other security and commodity markets. The bond market registered substantial gains and several principal staples, including cotton, wheat, hides and rubber, closed moderately higher.

Cotton, helped by a more favorable than expected domestic consumption report for September, pushed up about \$1 a bale, but its gains were reduced to only 30 to 50 cents a bale later. The December delivery finished at 6.47 cents a pound after touching 6.63.

The census bureau reported domestic consumption for last month at 491,655 bales, an increase of 27,320 bales over September of 1931.

Wheat futures at Chicago pushed up about 2 cents a bushel at one time but at the close of the market these advances had been reduced to 7-8 to 1 3-8 cents net. Corn moved narrowly, closing virtually unchanged.

The vigor of the advance in shares was understood to have been a large short interest, was a buoyant feature. Rising \$8.82 to \$108, then reacting to end the day at \$106. Union Pacific was another high flier.

roof protection at a nominal cost to take immediate advantage of this opportunity.

### Sterchi's Beauty Salon Instant Hit

Miss Ruby Stevens, beautician of Sterchi's new beauty salon, shown giving one of the new Frederic Croquignole waves to Mrs. H. M. Christopher. This new department opened recently on the balcony of this popular Whitehall street furniture store has scored one of the most outstanding successes ever recorded in Atlanta's history. Already the patronage has so far exceeded expectations that it has been necessary to install added equipment, build more booths and employ additional experienced operators.

Since the fall season opened it's been almost a question of "Good morning; are you getting your permanent wave today?"

With the new fall hats it's just necessary that one must have a permanent. Paris has decreed wider and fewer waves and many curls. So woman, fashion's slave, "falls in" to join fashion's army.

This is one of the reasons W. M. Hicks, vice president of Sterchi's, gives for the overwhelming patronage that has been given the beauty shop located on the balcony of Sterchi's Bros. stores, 116, 118 and 120 Whitehall street, S. W., owned and operated by this concern.

It has been necessary to put in new equipment, build additional booths and employ several additional experienced operators this past week so great has been the demand for permanent waves for fall. Sterchi's Beauty Salon is prepared to give all the fashionable styles in permanent waves.

It is the plan of Sterchi's to make this the outstanding beauty shop in the south, where women may obtain the latest styles in beauty work of every type, done in the best manner at a very reasonable price.

### Inventory Is Upheld At Power Rate Hearing

COLUMBIA, S. C., Oct. 14.—(AP)—Counsel for the Broad River Power Company sought without success Thursday to draw from Major Arthur R. Wellwood, chief engineer of the state railroad commission's electrical utilities division, and admission that the division's appraisal of the company's properties was not reliable.

Major Wellwood was a witness at the commission's hearing on an order for the power company to reduce its rates approximately \$170,000 a year. He was cross-examined by J. B. S. Lyles for the power company.

Lyles asked the witness if the division's appraisal of the company's properties for rate-fixing purposes were not based on an inventory admitted to be incorrect. Wellwood replied the division had used the best inventory available, it not having the means to make one of its own.

### MARTIN WILL HEAD BAR ASSOCIATION

Reynaud Asks Democracies "To Continue on Road to Peace."

WASHINGTON, Oct. 14.—(AP)—The American Bar Association was told today by Paul Reynaud, French statesman, that the "great democracies, America, Great Britain and France," have to "prove that the regime of liberty is able to meet any economic disturbance" and "to continue on the road to peace."

The former French minister of justice spoke at the concluding business session of the fifty-fifth annual meeting of the association which elected Clarence E. Martin, of Martinsburg, W. Va., president to succeed Guy A. Thompson, of St. Louis.

In his plea for world peace, Reynaud said that "peace has her victories not less than war." He said that "during the present crisis, nations are showing a tendency to isolate themselves economically." He asked what effect isolation policies would have on Europe and America if they curtailed their exports.

Representative Hutton W. Summers, of Texas, chairman of the judiciary committee of the house, urged return to the fundamentals in democratic government and "obedience to the laws of nature and the laws of God which govern government."

The Marquis of Reading, war-time British ambassador to the United States, addressed the delegates at a special session tonight.

Earlier, the association awarded its medal given annually for the "most outstanding contribution to American jurisprudence" to John Henry Wigmore, dean emeritus of the Northwestern University law school. Wigmore is the author of numerous works on jurisprudence.

## HOME LOAN BANKS WILL OPEN TODAY

### Newest Federal Relief Organization Ready for Operation.

WASHINGTON, Oct. 14.—(AP)—The government's newest machinery, designed to aid economic recovery and relieve pressure on its citizens, begins operations tomorrow.

Throughout the nation, the federal home loan banking system created by the last congress will begin to function with the 12 regional banks opening their doors to receive applications for loans on home mortgages.

"Foreclosure of sound home mortgages should cease," said the federal home loan board tonight in a statement which described the banks as intended "to liquidate millions of dollars of frozen home mortgages and bring relief to the harassed home-owner."

"With an initial capitalization of \$134,000,000," said the board, "the 12 banks spread over the entire country will tap a reservoir of more than \$1,500,000,000 of potential home financing credit."

"Pressure on the building and loan associations, savings banks, insurance companies and other types of home financing institutions handling long-term mortgages should be relieved by the home owner, through a resulting easement of the general home mortgage situation, should benefit."

The regional banks are at: Cambridge, Mass.; Newark, N. J.; Pittsburgh; Winston-Salem, N. C.; Cincinnati; Indianapolis; Evanston, Ill.; Des Moines; Little Rock, Ark.; Topeka, Kan.; Portland, Ore., and Los Angeles.

### BARNETT PRAISES RAMSPECK FIGHT FOR RELIEF FUNDS

Captain J. W. Barnett, chairman of the state highway board, in commenting Friday on criticism of the federal government's distribution of emergency relief funds made by Congressman Robert Ramspeck, said that he heartily endorsed the congressman's efforts to obtain additional federal aid for this district, "and, if he is successful, the department will be only too glad to administer them here."

Barnett explained that of the state's \$3,100,000 for emergency relief and unemployment, \$215,000 had already been distributed to Atlanta and Fulton county for purely relief work. He also said that the highway projects Ramspeck had urged, in appearing before the bureau of public roads in Washington, were already under way.

"The paving from Roswell to the Forsyth county line," Captain Barnett said, "has been in progress for more than a year and is being constructed entirely with state funds. The resurfacing of Ponce de Leon avenue and part of Lee street, asked for by Mr. Ramspeck, is also in progress and will be paid for with state, Fulton and DeKalb county funds. Moreover, the department is engaged in constructing an important bridge at Austell."

## JEWS OF ATLANTA BEGIN CELEBRATING TABERNACLE FEAST

Atlanta Jewry Friday night began celebration of the eight-day Feast of the Tabernacle, a period of joy which follows observance of the New Year and the Day of Atonement. The festival commemorates the hardships endured by the Israelites during their stay in the wilderness.

In connection with the festival Rabbi Harry Epstein, of the Congregation Ahavath Achim, plans two special sermons, one at 9:45 o'clock this morning and the second at the same hour Sunday morning.

Special services also are planned at the Shaarith Israel synagogue and at the Temple.

## INCREASED DEMAND FOR COAL IS NOTED

E. C. Mahan, president of Southern Coal & Coke Co., of Knoxville, Tenn., was in Atlanta yesterday calling on various firms with which his company does business.

When asked as to the coal situation he advised that there was a definite improvement in the demand for coal and that the mines in eastern Tennessee and Kentucky were operating on something near a full-time basis and providing work for a number of unemployed.

Mr. Mahan said that the prospect for coal business was better than it had been for some time, but that there was one situation in connection with the business that was very discouraging and that was the threatened passing by the coming congress of the so-called Davis-Kelly bill.

In Mr. Mahan's opinion, the passage of this bill would result in the most serious blow that the coal industry in the south has ever received. The bill is fostered by the same interests that have in years past attempted to cripple southern operators by obtaining a more adverse freight rate to the Lakes.

This Davis-Kelly bill, if enacted, Mr. Mahan says, would result in an increase in the price of coal to the public of not less than \$1 per ton and would create a coal commission, which would be similar to the interstate commerce commission, except many times larger, and would probably take from ten to twenty million dollars annually of the taxpayers' money to operate. This, together with the increase in price of coal of approximately \$500,000,000 a year, makes a staggering bill for the already overburdened taxpayer.

Continuing, Mr. Mahan said:

"Would Affect Railroads. In addition to damage that would be done to the coal industry of the south, it would have a far-reaching effect on southern railroads, who would be deprived of a large portion of the coal traffic they now enjoy. Under this bill, no coal operator would be permitted to ship coal in interstate commerce without a license granted by the coal commission. It apparently would be the first step of the government in entering private business. The inevitable result, if this bill becomes a law, would be that various other lines of business would probably be handled the same way in the not distant future. In my opinion, if the coal industry is so regulated, the cotton mills would probably be the next industry to be put under government supervision and regulation. If this proposed bill becomes a law, it will probably result in the government embarking upon a general policy of regulating private business. The coming congress will probably determine whether or not we are going to embark on a socialistic form of government, or continue to leave unhampered individual initiative on which basis we have become the greatest industrial nation in the world."

**Governor Approves  
Chatham's Loan Plea**

Governor Richard B. Russell Jr. Friday signed a formal application to the Reconstruction Finance Corporation for a \$200,000 loan for the relief of unemployed in Chatham county. The application approved by the chief executive requests that the money be paid to the county in three equal installments of \$66,666.66 each. The certificate said that the state's resources and those of Chatham county are insufficient to meet the relief needs in that county.

## A. & P. Opens New Store at 1013 Peachtree Replacing Old Location Destroyed by Fire

Interior of new A&P store at 1013 Peachtree street, at Tenth, which replaces the one destroyed by fire. The store is modernly equipped in every department.

The Great Atlantic & Pacific Tea Co. has opened a new store at 1013 Peachtree street, at Tenth, which replaces the place of the one recently destroyed by fire. The new store is modernly equipped in every department. The fixtures are arranged for convenience, easy shopping where the housewife can make her selections with the least possible effort, said Mr. Sikes.

"One of the features of the new store will be the produce department, where the very best produce will be on display at all times, and through new features brought out in the fixtures for this department, all produce will be kept fresh and crisp at all times."

"The meat market, under the supervision of W. F. Morris, is the very latest to be built. All meats will be displayed in electrically-controlled refrigerator units, under glass to insure complete sanitation. The fixtures in the market in various departments will be black with black striping," Mr. Sikes said.

## English Insurance Manager Minimizes Ottawa Action

Prominent insurance executives here on their tour of the United States are shown at the Baltimore. Left to right—J. D. Simpson, general manager of the Royal, Liverpool and London and Globe group, of Liverpool; A. Duncan Reid, of New York, president of the Globe Indemnity Company; S. Y. Tupper, southern manager of the Queen and Royal Fire Insurance Companies; and P. M. Spence, of Liverpool, financial secretary of the group.

Doubt that the reciprocal trade agreements reported to have been made between Canada, Great Britain and the other English speaking nations at the Ottawa conference would have a far-reaching effect on the relations between Canada and the United States was expressed here Friday by J. D. Simpson, an insurance official of Liverpool, who is making a tour of the United States in the interest of his organization.

"As a matter of fact, no one knows whether or not the agreements were made," he added. "I have just returned from a fortnight visit to Canada, and I don't believe that the reported reciprocal agreements will affect trade relations between Canada and the United States. I believe these will continue."

A great deal of hope is pinned to the forthcoming conference in London, in which the United States will have a part. I believe that the English speaking people of the world acting in concert will bring it out of this economic depression."

**Head of Group.** Mr. Simpson is the general manager of the Royal, Liverpool and London and Globe group of insurance companies. With him is P. M. Spence, financial secretary of the group, and A. Duncan Reid, of New York, president of the Globe Indemnity Company, which is part of the group.

S. Y. Tupper, Frank M. Sprattin, W. E. Harrington, and Milton Dargatzis, met the visitors here and took them to the Baltimore, where they will confer on insurance matters today.

Mr. Simpson said that his group had substantial assets of \$350,000,000, more than half of which was invested in American government, state and municipal bonds. He said that the group had essentially American interests. There are nine companies in the group, including the Queen, Newark, the Star, Eagle, Union and Globe Indemnity Companies. This group has over 6,000 employees, and the first company was founded in Charleston 80 years ago.

"Trading conditions are difficult," Mr. Simpson said. "Premiums are down in volume, but claims are not proportionately reduced, especially in the matter of workmen's compensation. We have to maintain our assets regardless of our profits, which makes the insurance problem as acute as that of any other line."

"Outside of the United States business conditions are as difficult as they are anywhere. England is fortunate in its government which has helped business, but taxes are onerous. Trade has not revived. The textile business is difficult because of high wages, although the Lancashire strike brought about a painful adjustment. The heavy industries like iron, steel, coal and shipping are having a hard time. The lighter manufacturing such as electricity and imitation silk are making headway."

## Key Declines To Aid In Milk Price Fight

Mayor James L. Key Friday declined to take part in the controversy in progress over the prices charged for pasteurized and raw milk in the Atlanta area.

A group of members of the Georgia Pure Milk League, the raw milk distributors, called on the mayor Friday morning and told him they had heard that an effort would be made to get them to increase their prices to those charged by pasteurizers and asked that he use his influence to thwart trouble in the event such an effort becomes a reality.

## Opens New Shop

Arthur Wasser, for several years identified with various local department stores, will open today a woman's apparel shop at 114 Whitehall street. Dresses, coats, millinery and underwear will be carried. Mr. Wasser promises that his customers will not be disappointed in the style, quality and price of his merchandise.

## DEATH CAR OCCUPANTS REMAIN BEHIND BARS

Occupants of the car which figured in an accident Wednesday night, causing the death of a young Atlanta and his wife, remained in jail Friday night after defense attorneys had requested a postponement of the preliminary hearing until October 28.

W. E. Ogburn, 41, of 706 Lee street, was charged with murder, while his companion in the car, Margaret Brooks, of 347 Capitol avenue, charged with drunk and disorderly, remained in the police station, weeping for her three children. Both are held without bond.

Ogburn is charged with the murder of Mr. and Mrs. Joseph B. Jones, youthful couple, who resided at 1092 Stewart avenue. Their 6-year-old daughter, Barbara, was orphaned by the crash.

The collision occurred late Wednesday night at Stewart avenue and Glenn street. Lloyd Hedger, of 963 St. Charles avenue, who was riding with the Jones and injured in the crash, was reported in serious condition at Grady hospital Friday night.

Following the postponement of the preliminary hearing Friday afternoon, Norman de Krasner, attorney for Ogburn and Mrs. Brooks, filed habeas corpus pleas to secure bond for both prisoners. A hearing on the writ will take place Tuesday before Superior Court Judge John D. Humphries.

Double funeral services for Mr. and Mrs. Jones were held Friday afternoon from the Capital Avenue Baptist church. The Rev. W. Lee Cutts officiated. Interment was in Oakhill cemetery, Newnan, Ga., with J. U. McKeon in charge.

## Committee To Decide On Delivery of Books

After an all-day hearing of representatives of the state board of education, the state textbook commission, appointed a sub-committee Friday to confer with the attorney-general on the question of whether the uniform textbook law calls for delivery of books to Atlanta or to the several counties of the state.

L. A. Whipple, of Cochran, S. D. Truett, of Atlanta, and Dr. J. Harrison of Macon, were named by Governor Richard B. Russell Jr., chairman of the board, to confer with the attorney-general.

The governor, it was explained, will call another meeting as soon as this special committee completes its report.

Adoptions were completed several days ago but a question has arisen, said M. L. Duggan, state superintendent of schools and secretary of the board, as to whether Atlanta delivery is optional with publishers or whether they may ship direct to county superintendents.

## CHURCH PLANS SUPPER TO AID NEEDY FAMILIES

Members of the Joy class of the Western Heights Baptist church Sunday school will stage a chicken supper sale beginning at 3 o'clock this afternoon and lasting until 8 o'clock tonight, it was announced Friday by Councilman Ellis B. Barrett, of the thirteenth ward teacher.

Funds will be devoted to aiding in the Christmas charities of the class. Last year 288 families benefited from baskets distributed and this year the demand will be greater.

"We are trying to do our bit in bringing Christmas cheer to hundreds who otherwise would not even have enough to eat," Barrett said. "This affair should have the support of Atlantans and we feel sure it will."

## FLORIDIAN KILLS WIFE AND COMMITTS SUICIDE

BRADEN, Fla., Oct. 14.—(AP) Roy Campbell, filling station operator at Braden, a few miles southeast of Braden, shot and killed his wife last night and then ended his own life.

No motive was definitely known, but jealousy was hinted as officers quoted one of the children as saying "father accused mother of being out with another man during the day, which she denied."

## Another Week-End of Accidents Here; Are You Fully Protected?

Another week-end will probably provide a trip into the country by motor or a walk in the suburbs. Of course you know accidents are going to happen—today; that men and women are going to be injured and maybe killed in crashes; that pedestrians are going to be run down. What have you done to protect yourself, for you may be one of the casualties?

Insure yourself as quickly, as cheaply and as efficiently as possible. The Atlanta Constitution offers you the opportunity.

If this lady had been as thoughtless and indifferent to The Constitution's insurance feature service offered as 90 per cent of its subscribers, she would not have been paid the claim as here set forth:

Mrs. Emma D. Hamby, of Atlanta, was injured in an automobile accident that happened near Mableton, Ga., on January 9, 1932, from which accident she was totally disabled for several weeks. On March 28 she was paid \$55 through The Atlanta Constitution by the North American Accident Insurance Company. Just a sample of claim payments being made nearly every day to Constitution subscribers.

The Constitution offers you the famous travel accident policy issued by the North American Accident Insurance Company, of Chicago. This insurance is offered to subscribers and immediate dependent members of a subscriber's family between the ages of 15 and 69 on the one subscription going into that home at the small registration fee of \$1 each per policy per year.

The policy The Constitution offers you provides for payment of sums ranging downward from \$10,000 for travel, \$1,000 for auto and pedestrian deaths resulting from certain specified accidents, heavy sums for permanent injuries, and \$10 weekly indemnity for total disability resulting from the accidents set forth in the policy. All this for only \$1 registration fee—just about 2 cents a week.

The policy is issued by the North American Accident Insurance Company, of Chicago, Ill. The reliability of this concern is proved by the fact that already more than \$150,000 in cash has been paid on claims to Constitution policy holders.

This insurance is offered to old and new subscribers alike. One who is now taking the daily and Sunday Constitution, or will subscribe for it through carrier in Atlanta or suburbs, through an out-of-town carrier or dealer, paying for the paper weekly, monthly, or otherwise, is a subscriber and is eligible.

Paid-in-advance mail subscribers can also have this insurance by paying the small registration fee of \$1 in addition to the subscription price. Those living in Atlanta and suburbs finding it inconvenient to pay the \$1 registration fee in advance can pay 20-cent registration fee with the ap-

lication and 20 cents for five consecutive weeks thereafter in addition to the subscription price.

In sending application for insurance the applicant must state name in full, give age and occupation, and if beneficiary is desired the full Christian name of the beneficiary must be given and relationship to the insured.

## H. C. SHIVERS BACK WITH J. M. HIGH CO.

Harvey C. Shivers is now connected with the J. M. High Company as manager of the men's and boys' department.

"Back to High's" is the case with Mr. Shivers. As a mere lad he worked in school vacation time as cash boy at High's.

At the age of 20 he entered the boys' clothing business with the M. R.

H. C. SHIVERS.

Emmons Co. Since then he has been associated with other prominent clothing stores in Atlanta.

All of this has given Mr. Shivers a thorough knowledge of his line. He has seen men's and boys' clothing in the making. The factories, the labor conditions, the materials he knows as Bobby Jones knows golf. Hand-made clothes, machine-made clothes, he differentiates at sight as most men do a putter and a masher. Mr. Shivers looks to a steady price rise in clothing lines.

"Now," he says, "is the time to invest in good clothes."

## Reviewing the Shows

### Rialto New Feature

#### Is "Night Club Lady"

"Night Club Lady," first of the famous Thatcher Colt murder mystery stories to be made for the screen, opens a week's run at the Rialto theater today. This Columbia production launches a month of special features that has been designated "Prosperity Month" by the theater and by Columbia.

Adolph Menjou, chosen to create for the screen the character of Thatcher Colt, police commissioner of New York who solves his crime puzzles with the finest logic of any fiction detective yet created, makes an ideal sleuth. His gravity and light comedy perfectly suit the type.

Mayo Methot, well known in Atlanta, where she was once leading lady for a stock company, is "Lola Carraway," the "night club lady," whose murder is the basis for the story, while Skeets Gallagher, Blanche Frederici, Ruthanna Stevens, Albert Conti and other favorites are in the cast.

Splendid short screen subjects complete the bill, which will be shown through next Friday.

### "Phantom President,"

#### Paramount Feature

"The Phantom President," a political comedy, featuring George M. Cohan, Claudette Colbert and Jimmy Durante, opens at the Paramount theater today.

It is Cohan's first talking picture, but he has been a prominent stage personality for three decades.

The picture deals with a presidential campaign, in which the behind scenes wire-pullers select a candidate well equipped for the job, but lacking the personality to win votes. About to drop him as a possibility, they change their minds when they discover a medicine-show barker, practically oozing with personality, and an exact double for their man.

Cohan plays the dual role of the candidate and the barker. Miss Colbert is the daughter of an ex-president. This picture is another exclusive booking for the Paramount, meaning that it will not be shown in any other Atlanta theater.

The short features program also has been carefully selected with a "Sportlight" and a screen souvenir.

### Magician Li Ho Chang

#### Now on Georgia Stage

In far-off China, the world's oldest civilized country, secret oriental mysteries have existed for thousands of years, being enlarged upon as time went on by the modern students and workers of illusion who in recent years have become the cleverest magicians known.

From China comes the famous master, Li Ho Chang, to Atlanta and the Georgia theater for one week, starting today, as a special added attraction on the stage.

Using clever wit and remarkable stage presence, Li Ho Chang has built up an act wherein by introducing his secret knowledge of magic, he holds his entire audience spellbound, delighted that for once in their lives they have witnessed illusion and magic beyond human comprehension.

In addition to Chang on the stage the Georgia will also offer "The Night of June 13th," a Paramount picture starring Clive Brook, Frances Dee, Charles Ruggles and many others.

There will be no increase in admission stated by the Georgia management.

### Season Reservations

#### At Erlanger Monday

Season reservations for the Atlanta Civic Permanent Players, whose stage productions will be launched at the Erlanger theater with "Destiny Takes a Holiday," on Monday, October 24, will be available at the box office of the theater beginning Monday next at 10 a. m. The office will be open daily from 10 to 6.

Manager Lewis Haase also urged that holders of subscription coupon books made their reservations early next week, in order that they may secure the first choice of seats. Both season reservations and reservations for coupon book holders will be available Monday.

The single performance sale of seats for "Destiny Takes a Holiday" will open at the box office next Thursday.

### Noted Mystery Story

#### Begins Fox Run Today

Today, at the Fox theater, there will be disclosed the solution to "The Phantom of Crestwood," the most gripping mystery that has ever held a nation spellbound. For the past several months radio listeners have tuned in each week for a new episode, hearing a startling fresh development each time. Now, in more than 200 key cities in America, the solution will be revealed on the screen.

"The Phantom of Crestwood" concerns itself with the mysterious death of Jenny Wren, beautiful adventuress, who, after assembling several of her former "playmates" at the Adirondacks home of Brian Adams, attempts to "take" them for a half-million dollar "retirement fund."

Her death, at midnight, by a dart shot into the base of her brain places 13 people under suspicion, all of whom had reason for wishing her out of the way.

Enrico Leide, leader of the Fox Grand orchestra, returns to the "pit" to conduct 40 talented musicians in that popular fan song, "The Desert Song." Ellis Williams, lyric tenor, will sing "One Alone." Jimmie Beers at the organ and selected short subjects will complete the program.

### Real Screen Artistry

#### In "Smilin' Through"

When announcement was first made that Metro-Goldwyn-Mayer would make a screen version of "Smilin' Through," that exquisite stage play in which Jane Cowl won so much fame, and when it was further announced that Norma Shearer would exact the Cowl role for the cameras, there was some doubt as to the suitability of the story for the screen and of the actress, great though she undoubtedly is, for the role.

Friday afternoon at the new Loew's Grand theater all doubts on both scores were completely dissipated. Rarely has a more beautiful piece of work been seen on the talking screen and Miss Shearer added immensely to her artistic stature by her playing of the double role of Moonyeen and Kathleen.

Few stories have been conceived with such tender romance as that which is woven throughout "Smilin' Through." The story of the lonely bachelor, true through all the years

to the bride who was murdered even as she stood at the altar taking her marital vows is one of those fragile things that must be interpreted with perfect understanding or become mawkish. And the roles must all be enacted with the same inspired art—and they are so enacted.

Leslie Howard is Sir John Cartaret. He brings a sympathy that perhaps no other player could feel to the character of the pitiful English recluse. O. P. Heggie adds another to that list of great achievements which grows with every part he plays. Fredric March, borrowed from another studio especially for this picture, gives a typical polished March performance as Kenneth Wayne, the youthful hero, while Ralph Forbes, Beryl Mercer, David Torrance and others fill the smaller roles altogether acceptably.

Few pictures have so fully warranted whatever claim to genuine art the screen puts forth as "Smilin' Through." It will undoubtedly be listed for years to come as a classic achievement, marking another forward step of the two-dimensional art. But don't forget your handkerchief, for it works on the tear ducts.

The usual excellent shorts always found on Loew programs are shown with the feature.

RALPH T. JONES.

## Scott To Lead Fight For 5-Cent Carfare

Alderman John F. Scott Monday will seek to place council squarely behind the drive for a 5-cent bus and trolley car fare for Atlanta when he offers a resolution which would be a petition to the public service commission to enforce the lower scale.

"The measure I contemplate will be in line with the resolutions passed by the Atlanta Federation of Trades," Scott said. "It will seek to place council behind the move for the lower rate."

Street car fares in Atlanta are 10 cents, with a provision that four tickets may be bought for 30 cents, and that 20 rides are sold to school children for \$1. Bus fares are 10 cents straight.

Witness Mr. Price's work," he said stiffly.

"He's always cut my hair," explained Tubby. "And the guv'nor—when he had any. How do you mean, you've not seen him at work?"

"Mr. Price has not been on the premises for a matter of two weeks, sir. I haven't seen him since the day he engaged me."

"Oh, you're new here?" said Tubby.

"Yes, sir. I used to be in office at Truett's," said Meech, with the air of one putting somebody in his place.

"And Price hasn't been here for two weeks?" said young Lord Bridgforth.

"No, sir."

"What's become of him?"

"In the country, sir, I understand."

"Oh, taking a holiday?"

A rather mysterious note came into his momentary chagrin and Meech's voice. He had recovered welcomed the opportunity of discussing a matter which had been giving him considerable food for thought.

"If you ask me, sir, I think Mr. Price is retiring."

"What?"

"Yes, sir. I fancy this establishment is coming under new management."

Tubby uttered a startled "Goo! Lord!" He was astonished. Price's had always been to him something as stable as the British Museum. There it was, he meant to say, and there it always had been within the memory of man. He could remember being brought there by his nurse to have his curls clipped by the present proprietor's father. It seemed incredible to him that the reigning dynasty could ever pass.

"You don't mean Price has sold the place?"

"Whether a sale has actually been consummated, sir," replied Meech, in his dignified way, "I couldn't tell you. But there it is. For two weeks Mr. Price hasn't set foot in the shop, and all that while there's been a new man in and out. Studying conditions, if you ask me, with a view to purchase."

"What sort of chap?"

"Very nice, well spoken young fellow, sir. Quite the gentleman. Name of Anthony."

"Oh," said Tubby.

He was shaken. His was a conservative soul, and he mourned the passing of any London landmark. It had descended from him to his son for so many years should pass into the hands of a stranger, nice and well spoken though he might be.

Still, that was the way it went nowadays, mused Tubby sorrowfully. All the old places you had always looked on as fixtures going west on you the moment you took your eye off them. He wouldn't be surprised if at any minute somebody told him that they had pulled down the Cheshire Cheese or Simpson's. Probably they'd abolish the Eton and Harrow match next.

"Well, I hope he's all right," he said. "Because a lot of people have got into the habit of coming here."

He would have spoken further, but at this moment the street door opened, and he perceived the immaculate form of his friend Freddie Chalk-Marshall. Tubby was surprised. He had imagined that the other was down at Langley End.

"Hello, Freddie," he said.

"Hello, Tubby."

Lord Bridgforth seemed still to be under the impression that there was an outside chance of this being a mirage or figment of the imagination.

"Are you in London?" he asked, to settle this point.

Freddie assured him that he was.

"Tony in London?"

"Er—yes," said Freddie. "Yes, Tony's in London."

"The whole blooming family in London?"

"Yes. We moved up from Langley End yesterday."

Freddie spoke like one on his guard, weighing his words. Into his manner, as he gazed at his old schoolmate, there had crept a certain wariness.

Continued Monday.

## Georgia Division U. D. C. To Hold Its 37th Convention in Bainbridge, Ga.

BAINBRIDGE, Ga., Oct. 14.—On Tuesday, Wednesday and Thursday, October 25, 26 and 27, the United Daughters of the Confederacy will hold its thirty-seventh annual state convention in Bainbridge, with the Bainbridge chapter as hosts. About 200 prominent Georgia women are expected to attend, led by Mrs. Izzie Bashinski, of Dublin, the state president. The sessions during the three-day meeting will be held in the Bainbridge grammar school auditorium, to which the public has been invited.

Mrs. C. S. Hodges Sr., president of the Bainbridge chapter, has completed the appointments of the convention committees and work toward the perfection of the arrangements is progressing steadily. Mrs. J. M. Simmons, a state vice president, is chairman of the program committee and has recently released an outline of the various meetings, which has been endorsed by the state officers.

**Program Outlined.**  
The first session will be held at 8 o'clock Tuesday evening, October 25, and opens with a recessional featuring a bugle call by P. T. Rich Jr., followed by invocation by the Rev. J. E. Ward, of the First Presbyterian church of Bainbridge. Introductory remarks will be made by Mrs. Hodges and welcome addresses will be given by J. M. Simmons, mayor of Bainbridge; Superintendent E. G. Elean, of the local schools; Mrs. E. Truogge Hines, representing the Bainbridge U. D. C. chapter; Mrs. A. B. Conger, of the Women's Clubs, and Melvin H. Nussbaum, of the men's organizations. Mrs. Bashinski, the state president, will be introduced by Mrs. J. M. Simmons.

At the close of the first session, the Bainbridge chapter will entertain at a brilliant reception at the home of Mrs. John W. Callahan, honoring the visiting delegates.

On the following day, the Bainbridge chapter of the United Daughters of the American Revolution and the American Legion auxiliary will combine in serving luncheon to the delegates at Lingerlong, the country home of Mrs. A. B. Conger, who is regent of the D. A. R. chapter and prominent in women's activities of Bainbridge. That afternoon, the convention will meet at the grammar school auditorium in what will be known as "memorial hour."

The opening prayer will be led by the Rev. H. H. Shell, of the First Baptist church. Mrs. Atticus Parker will sing "Crossing the Bar," accompanied on the piano by Mrs. Gordon Chason.

Flowers for the chapter memorials will be placed by Mrs. L. D. Mrs. Eleanor McCroskey Barnes, talented and resourceful artist connected with M. Rich, Inc., designer of the poster, which is 8x10 inches, her artistic and forceful conception of its rustic meaning being expressed in the glowing flame of the candle. ## Gleaned From the Notebook of Women's Division of Atlanta Community Chest

It was remarkable, the spirit of the group of women leaders, Mrs. Arkwright, Mrs. McCrae, Mrs. Moss, Mrs. Cooney, as they sat around and talked over their plans, eyes sparkling, voices busy, sure of their objective, sure of their support. "Why," said one, "I haven't asked a woman that didn't enthusiastically agree to put her shoulder to the wheel."

"That's not all," answered another. "I am really afraid of offending the people for whom I haven't room among my workers." "Do you know," asserted a third, "it's quite 'the thing' to work for the Chest, and if our response for funds equals our response for workers, we shall be able to quiet thousands of aching bodies and hearts in Atlanta this coming winter."

"Wouldn't it be just too wonderful if we could put this thing over?" was the quiet quivering voice of another.

"We are going to do it," firmly and surely asserted Mrs. Arkwright. "I feel with a dear friend of mine, too ill to work with us now, that the most glorious expression of the great Atlanta spirit would be a tremendous victory for the Community Chest. She says it is way beyond getting money, it is the true fulfillment of the Atlanta spirit."

So goes the talk of the leaders of the women's committee in the few minutes respite for lunch between organizing and directing groups for the real work of collecting funds for the Atlanta Community Chest. With such happy urgings, there can be nothing but success.
